

WORLD MONEY WAR THREATS HEARD TODAY

GOLD STANDARD NATIONS TO
BE ALIGNED AGAINST IN-
FLATIONARY GROUP

CONFERENCE REACHES CRISIS

North and South America, Britain,
Japan, China, and Scandinavian
Nations Comprise One Bloc

LONDON, July 7, (UP)—Threat of
a world currency war, in which North
and South America, the British em-
pire, the Far East and Scandinavia
would be aligned against the Euro-
pean gold standard nations, develop-
ed today at the world economic con-
ference.

A movement was quietly underway
to initiate a gigantic price raising
agreement among the Anglo nations
along the lines of Roosevelt's infla-
tionary program which brought the
conference to a life-or-death crisis,
the United Press learned.

Success of the movement would
mean, ultimately, establishment of a
bloc embracing the United States,
Great Britain and her dominions, the
Latin nations, Japan, China, and the
Scandinavian nations in favor of
price raising.

They would leave the gold standard
nations, as it was put, "to starve
amidst their golden plenty" unless
they followed.

Pressure from the British domini-
ons, and notably from Canada, whose
prime minister, R. B. Bennett, stood
shoulder to shoulder with Cordell Hull
of the United States in the fight to
prevent adjournment of the confer-
ence, was believed to be pushing
Great Britain into line with the
Roosevelt policy.

This pressure has eliminated the
possibility that Great Britain would
align herself with the gold standard
nations. She now was awaiting, ap-
parently, a practical demonstration
of the success of President Roosevelt's
policy with a view to possible emula-
tion.

The newspaper, "The Times,"
which usually reflects the official
British view, said editorially today:

"It is of the utmost importance to
the world that the policy of Great
Britain and dominions should be di-
rected toward the same end which
President Roosevelt is pursuing after
his own fashion."

Argentina was increasingly in favor
of an inflation policy.

There were stirrings everywhere of
tremendous impending events.

The gold standard nations, France,
Holland, Switzerland, Italy, Belgium
and Poland, called a meeting of the
heads of their central banks at Paris
tomorrow to plan action in defense of
the gold standard.

The gravity with which gold stand-
ard nations took the situation was re-
flected in the statement by gold
standard men that their stout fight
for currency stabilization at the con-
ference was motivated by the fear of
serious political upheavals in their
countries if they went off the gold
standard. Revolution was mentioned
as a possibility.

The economic commission's sub-
committee on immediate monetary
measures met, with all members
present. It decided it could continue
work on coordination of production
of major commodities, and could con-
sider also the question of indirect
protectionism.

French Finance Minister Bonnet
urged limitation of the committee's
program to the problem of indebted-
ness, arguing that other monetary
questions could not be discussed "so
long as there is no change in the
American attitude."

Discussion, he said, would play into
the hands of speculators and endan-
ger stable currencies.

Bonnet made his speech in support-
ing the resolution of M. V. Adgearu,
Romanian foreign minister, to strike
all monetary questions but that of
indebtedness out of the committee's
program.

Bonnet said that a few days might
change the entire situation. He re-
called an earlier talk with James M.
Cox, American delegate, and quoted
Cox as saying that it was essential
to stabilize as soon as possible.

Neville Chamberlain, British chan-
cellor of the exchequer, opposed Bon-
net and Madgearu, and suggested
that the committee discuss all mon-
etary questions because they were in-
separable from each other.

Cox, American member of the sub-
committee, was indisposed and did not
attend.

ican Federation of Labor, who was
recently appointed assistant to Gen-
eral Hugh Johnson, Recovery Ad-
ministrator, is shown at his desk in

ated with labor all his life.

All Grain Prices Reach New Highs

WHEAT TAKES LEAD IN SPURT
ON CHICAGO BOARD OF
TRADE

CHICAGO, July 7, (UP)—Wheat
took the lead as all grains shot to
new highs when the Board of Trade
opened today rising 1 1/4 to 2 1/4
cents. Strength in stocks, weather
and sensational rise in sterling that
lifted Liverpool prices around 5 cents
in American money brought in a tre-
mendous volume of buying with offer-
ings limited.

Corn bounded upward but was un-
evenly 7-8 cents lower to 1 7/8 cents
higher. Oats gained 1/2 to 3/4 cent
and rye was 1-5/8 cents higher. Pro-
visions were very strong.

Many old traders feel that the pro-
longed rise has weakened the tech-
nical position of the market, in view
of the 12 to 13 cents gain in a week,
and are counselling caution. Liver-
pool rose 4 to 4 2/8 cents by mid-
afternoon on the sensational rise in
sterling.

Corn, it is felt, has a real founda-
tion for bullishness. A late start with
no rains for three weeks, until last
night's good precipitation in the west-
ern part of the belt, indicates a re-
duced crop.

Oats lost some of their snap yes-
terday but buying continues good de-
spite the fact that prices had trebled
in value, which tends to materially
discount the short crop and other fac-
tors.

Hijackers Wound Woman Motorist

FIRE ON AUTOMOBILE ON U. S.
52 NEAR LEBANON
TODAY

LEBANON, Ind., July 7, (UP)—
Mrs. Joseph L. Drake, 36, Indiana-
polis, was wounded near here today
when her husband described as a gun
attack by hi-jackers.

Drake said three men in a car over-
took them on U. S. road 52 near the
Boone-Clinton county lines.

"They fired at our rear tires," he
explained. "One bullet went wild,
piercing the car and entering Mrs.
Drake's back."

Sheriff Wilbur Small quoted hospi-
tal attaches as saying the bullet en-
tered Mrs. Drake's chest. Although
Drake insisted the men fired only
when they were back of the car, the
sheriff found Drake's windshield had
been pierced by a bullet.

Drake admitted that he was a liq-
uor runner, according to the sheriff,
but denied carrying a cargo on the
trip today.

Hold Eminence Man After Wife's Death

ALLEGED TO HAVE FAILED TO
PROVIDE MEDICAL CARE
FOR WIFE

MARTINSVILLE, Ind., July 7.—
Luther Ross Norris, living near Emi-
nence, was placed under arrest Wed-
nesday evening by Deputy Sheriff
Verl Clark and is being held in jail to
answer to a charge of failure to pro-
vide medical attention for his wife,
Ida May Norris, who died Saturday
night after an illness with typhoid
fever. The cause of her death was
not definitely known until an autopsy
was performed, as no physician was
called to attend her during her ill-
ness, it is said.

Norris, it is said, does not believe
in calling a physician in cases of ill-
ness.

The three children in the family,
Lola Ross, 5, Marvin Dale, 4, and
Betty Jean, 2, have been made wards
of the court on petition of Harry De-
Turk, of the board of children's
guardians. Marvin Dale is ill with
typhoid fever and has been brought to
the Memorial hospital in this city by
Jesse W. Cure on an order from
Judge C. G. Vernon. The other two
children have been placed in the care
of Mrs. Elden Murphy, a sister of
Mrs. Norris.

Acting on orders from Dr. G. B.
Breedlove, secretary of the county
board of health, Dr. O. A. Sweet had
secured a sample of water and had
placed a notice on the pump giving in-
structions that the well should not be
used until a report had been received
as to the condition of the water. The
notice, however, was torn from the
pump, pending word from the state
chemist to whom the sample of
water was sent. The family had
lived at the place only about three
weeks and previous to that time the
farm had not been occupied for sev-
eral years.

THE WEATHER

Generally fair; slightly warmer in
north and central portions tonight;

Dog Which Bit Boy Had Rabies

STATE BOARD OF HEALTH
MAKES REPORT FOLLOWING
EXAMINATION

Head of a large shepherd dog which
attacked and bit a small son of Mr.
and Mrs. Victor Cue, living west of
Cloverdale, late Tuesday, was suffer-
ing from rabies, according to a re-
port Friday from the state board of
health at Indianapolis where the head
was sent for examination.

In addition to the boy, several dogs
in Cloverdale and vicinity were at-
tacked and bitten by the rabid animal.
The boy will be given the Pasteur
treatment for the prevention of
hydrophobia.

After making its way through Clo-
verdale Tuesday the dog stopped at
the Cue home and attacked the Cue
boy while he was sitting in an auto-
mobile. The dog later was shot and
killed by Ora Finney and the head
sent to Indianapolis for examination.

Dr. Gilbert D. Rhea, county health
officer, who received the state board
of health report Friday, warned that
all dogs bitten by the rabid animal
were in danger of contracting the
disease and should either be killed or
kept closely confined.

WORLD FLIER SAFE; RADIOS FROM SIBERIA

JIMMY MATTERN MISSING SINCE
JUNE 14 ON SOLO GLOBE
FLIGHT

WELCOME NEWS TO BACKERS

Terse Message From Mattern Radioed
To Chicago From Isolated
Siberian Station

CHICAGO, July 7, (UP)—James
Mattern, around the world flier who
became lost over the desolate wastes
of Siberia, radioed his backers here
today that he is safe.

A cryptic message received here
said:

"Safe Amadir, Chukotka, Siberia.

"(Signed) Gemmie Mattern."

Mattern's backers attributed the
misspelling of the aviator's name to
errors in transmission.

Mattern, who took off from Amer-
ica in a bold attempt to make a solo
flight around the world, was last
heard from June 14 when he wired
his headquarters here from Khabar-
ovsk, Russia.

At that time he had flown 1,400
miles toward Nome, Alaska, but was
forced to turn back. "Will try again
tomorrow," his message ended. That
was the last word, save for news dis-
patches indicating he had taken off in
this new effort.

Days and weeks went by with no
word. "We were frantic," said Sam-
uel J. Sackett, one of the backers, to-
day.

"I have never known such relief as
this message today gives me. Rescue
attempts were being made, of course,
but in the wastes of that country
they seemed feeble and hopeless."

WASHINGTON, July 7, (UP)—
Coast guard officials today instruct-
ed the cutter, the Northland, 300
miles off the coast of Siberia, to co-
operate with Soviet authorities in
bringing back Jimmy Mattern, world
flier.

The Northland cannot go into So-
viet waters without permission and at
present is communicating by wire-
less with Soviet officials in Siberia.

The French pilots had hoped to

Draws Fine On Assault Charge

ORA FINNEY OF CLOVERDALE
PLEADS GUILTY BEFORE
MAYOR DENMAN

Ora Finney of Cloverdale, charged
with assault and battery on Charles
W. Query, also of Cloverdale, plead-
ed guilty before Mayor W. L. Den-
man in city court Friday morning
and was fined \$1 and costs. A second
charge of drawing a deadly weapon
on Query was dismissed by the pro-
secuting witness.

Finney and Query were alleged to
have engaged in an altercation in
Cloverdale on the morning of July
4. Query charging in affidavits filed
in city court here that Finney struck
him and also drew a revolver. Fin-
ney admitted the assault charge but
said that the gun fell out of his pocket
accidentally. He is said to have a
permit to carry the weapon.

An altercation between the two
Cloverdale men is said to have re-
sulted from an argument over fish-
ing tackle.

Factor's Ransom Is Still Pending

DIFFICULTY IN RAISING SUM
ASKED BY KIDNAPERS
DELAYS RELEASE

CHICAGO, July 7, (UP)—From un-
derworld sources came information
today that the five desperadoes who
kidnaped William Hamm, Jr., wealthy
St. Paul brewer, for \$100,000 ran-
some participated in the abduction of
John Factor.

CHICAGO, July 7, (UP)—Diffi-
culty in raising ransom money was
believed delaying negotiations today
for return of John (Jake the Barber)
Factor.

Although the ransom demand was
believed reduced considerably from
the original figure of \$150,000, the
amount has not yet been raised, it
was understood. Further efforts to
obtain the funds from Factor's friends
were planned today.

A committee handling the negotia-
tions was understood to be in con-
stant communication with the kidnap
gang which seized Factor early last
Saturday morning. They believed
Factor would be freed as soon as the
ransom was paid, discounting reports
that the wealthy broker was seen in
several different parts of the country.

DESTRUCTION OF AIR FLEET THREATENED

ITALIAN AIR ARMADA MAY
ENCOUNTER TROUBLE ON
ARRIVAL IN CHICAGO

HEAVY GUARD IS ARRANGED

Threats Of Anti-Fascist Groups To
"Blow Up Seaplanes" Taken
Seriously By Officials

CHICAGO, July 7, (UP)—Anti-
Fascist groups have threatened to
"blow General Italo Balbo and his 24
seaplanes out of the lake" if they try
to moor the royal air force squadron
on the Chicago lake front, it was
learned today.

The Italians, possibly influenced by
the threats, have as yet not announced
whether the fleet will moor here or
in Lake Geneva, Wisconsin.

A series of threatening letters re-
ceived by Italian Consul General Gio-
seppe Castruccio has caused so much
concern that special protection has
been arranged if the fliers land here,
with a police motorcycle escort to ac-
company them if they proceed to Lake
Geneva by automobile.

"We have received some threats,
Castruccio told the United Press, "and
have turned them over to the police.
We do not anticipate any trouble but
it is best to take precautions. There
always is danger of some outbreak by
a crank or an extremist."

The squadron demonstrating Fas-
cist Italy's air strength, has as its
leader the man who is popularly list-
ed as the logical successor to Benito
Mussolini.

Evidence that the threats received
have occasioned more than passing
concern was seen in the attitude of
Col. Carlo Tempesti who is in charge
of mooring plans and who has asked
that detachments of the Wisconsin
national guard be stationed at Lake
Geneva in addition to the 100 or more
special deputies, 194 and water po-
lice already scheduled to guard the
seaplanes.

Mayor Sturges P. Taggart of Lake
Geneva has requested Gov. Schmede-
man of Wisconsin that he furnish the
guardsmen and has assured Col.
Tempesti and Prince Potenziana,
Italy's representative at the world's
fair, that every precaution against
anti-Fascist demonstrations will be
taken.

Extensive technical preparations,
including 24 specially constructed
buoys installed here, have led to the
conclusion that the seaplanes likely
will make their headquarters at Lake
Geneva.

REYKJAVIK, Iceland, July 7, (UP)—
Their motors tuned and their fuel
tanks filled, Italy's 24 seaplanes en-
route to the Chicago exposition await-
ed good weather today before taking
off for Cartwright, Labrador. A
take off was not thought likely today.

DePauw Notes

Eleven DePauw University students have received special awards from the Edward Rector Scholarship Foundation for the 1932-33 academic year during the school year just past, according to Dr. Henry J. Longden, director of the foundation.

Seven freshmen received scholarships, five good for the remaining three years of their college course for having made fifty or more scholastic points during their first year. These scholarships were received by Charles Larnot, Jr., Jeffersonville; Wendell S. Moore, Watertown, Mass.; Paul Yingler, Throve Rivers, Mich.; Robert F. Erdman, Normal, Ill.; and Arthur Grant Bailey, Vernon Rogers and Francis S. Spencer, all of Evanson, Ill. Prizes of \$100 each were awarded

to the four students who led their respective classes in scholarship. William Nathan Owsa of Marion led the freshman class in scholarship; Howard A. Wilson of New Harmony topped the sophomores; Glenn Nesby of Brazil led the junior class and Arthur Gordon Montgomery of Chicago graduated with the senior class with the most points. All were Rector scholars; otherwise they would have received scholarships instead of the cash award.

Dr. Longden stated today that Rector scholarships for incoming freshmen would be announced about August 1. There will be between seventy-five and one hundred available this year. Approximately one hundred Rector scholars were graduated with the senior class in June and more than four hundred undergraduates will return to the campus in September with scholarships so that between five hundred and six hundred Rector scholars will be on the campus again the coming year.

NEW TYPE MOTOR CAR

BRIDGEPORT, Conn. (UP)—A new type motor car, radically different from any on the market, has been designed here by W. Sterling Burgess, yacht builder, and soon will be put on the road for tests.

Burgess, a former lieutenant commander in the navy, has designed the car much after the Class C dirigibles which he developed. Wind resistance is cut 80 per cent, compared with that of the present models, he says, and the chassis is mounted on three wheels instead of the conventional four.

The cars are bullet shaped and come to a point in the rear. They are built to seat four people. The single wheel, at the rear, is used for steering. The front wheels drive the car, which is powered with an eight-cylinder motor.

INGLENESS IS CAUSE OF DISSATISFIED WIVES

BUFFALO, N. Y. (UP)—The reason there are so many dissatisfied wives is because wives haven't enough to do about the house to keep them fully occupied with their jobs according to Mrs. Peter Hecker.

She and her husband recently celebrated their golden wedding anniversary.

"In my time, keeping house and raising children was a fulltime job and a lifetime career," Mrs. Hecker said. "There wasn't much time left to wonder if you were being neglected or to sigh over an abandoned career. Now that labor saving devices have taken over most of the work of being a home-maker, women don't find their tasks so engrossing and have a lot of time on their hands. If they had a bigger job, something that would make them find the day going too fast, I think more marriages would be successful and happier than they seem to be now."

MAN DESCRIBES SELF AS
JUST A DAMNED FOOL

SPRINGFIELD, Mo., (UP)—Roland (Screwdriver) Haley, awaiting trial on charges of bank robbery, de-

scribed himself thusly:
"I'm not a bad man—I'm just a damned fool."

Haley explained his nickname, "Screwdriver," was derived from the fact that "I pulled so many corks out of whiskey bottles when I was young."

U. S. BUREAU

WASHINGTON, July 7.—Protection of the investing public without handicapping general business financing was listed as the chief objective of the federal trade commission today in an announcement promulgating its rules for enforcing the federal securities act.

This statement of policy accompanied publication of the many-worded list of regulations through which the commission will supervise future security sales, and a 37-page registration form on which issuers must tell the commission and the public the financial facts supporting their securities.

The commission said that in approving the rules it had regard for the public interest and for the protection of investors, "but endeavored to place no undue burden either upon general business or upon honest and reputable investment dealers."

It added that it would receive registration statements beginning tomorrow and that these certificates "with all information contained therein, will be available for public inspection at the commission's offices in Washington."

"The commission desired to point out," it said, "that most of the rules and regulations are explicitly required by the securities act."

"In some matters the commission has discretion and the rules and regulations in relation thereto are experimental pending actual working experience with the new securities act and will be subject to revision from time to time as experience proves the advisability of changes."

Registration certificates, which encompass the financial background of a business issuing new securities, must be filed with the commission in triplicate. Together with them must go five copies of the advertising prospectus to be issued on the security.

Important among the allowed omissions from advertising circulars are the discounts and commissions paid underwriters.

Registration certificates must be on file 20 days before they become effective. Filing does not become mandatory until July 27.

Important facts required in the registration certificate include:
Up to date balance sheets.

Names of underwriters and owners of more than 10 per cent of any one class of the company's outstanding stock.

Lists of persons to be offered the issue at prices below those paid by the general public.

Articles of incorporation of the business and latest annual reports.

**U. S. Weeds Out
Work Projects**

STATES WITHOUT BALANCED
BUDGETS WILL NOT RECEIVE
PORTION OF FUND

WASHINGTON, July 7.—Strict weeding out of non-essential construction projects from the government's public works program was advocated Thursday by Lewis W. Douglas, director of the budget, as he assisted President Roosevelt in scanning the long list of undertakings proposed by the special public works board.

The budget director, talking to newsmen after conferring with the president, emphasized that he was seeking caution all along the line in the big expenditure plan, and that he was urging emphatically that the states be required to show balanced budgets before they be allowed to participate.

Mr. Roosevelt, who some time ago urged that only useful projects be included in the \$3,300,000,000 building program was expected to cull the list considerably.

Meanwhile, the president called in Secretary Wallace, George N. Peek, the farm relief administrator, and Hugo S. Johnson, industrial administrator, to work out an agreement by which it was decided to leave all administration of food and food products industries to the agricultural administration. Both the agriculture and justice departments already have started looking into the question of food price increases.

Johnson, who had his report on the cotton textile industry's code of fair competition ready for submission to the president, postponed presenting it because of other business. Nor did he find time to give the chief executive a thorough-going review of developments under his administration.

One matter still to be threshed out in relation to cotton code, first to be submitted and the only one so far sub-

jected to a hearing, was the proposal for elimination of the "stretch-out" system from cotton mills. This is a method whereby individual employees are given increasing numbers of machines to tend.

However, it did not appear that the report on this angle would be awaited before the code was put before the president for study, and Johnson told newsmen that he was sticking to the idea of having this agreement promulgated first, since the cotton men had led business in submitting their proposals.

Douglas' stand for making advances only to states with balanced finances was in keeping with a provision of the law authorizing the chief executive to withhold funds from states which have not adjusted their affairs. Douglas said his concern was for strict justification of every expenditure under a program which would increase the federal debt so vastly.

Announcement of the projects to be started immediately is expected soon after the president concludes his study of the list.

Donald H. Sawyer, the administrator of public works, received, meanwhile, from the national public housing conference a plea for a well-organized plan to clear slums and provide low cost housing in industrial areas.

Meanwhile, it became known at the White House that the president was considering the appointment of regional public works administrators instead of one for each state.

No decision with regard to this change in the original plans had been made, but the chief executive discussed the proposal with some of the callers who visited him Thursday.

**LONDON COUNCIL AIDS
TEACHERS NAZIS EXPELLED**

LONDON, (UP)—The expulsion, or suspension, or more than 165 professors and teachers from German universities since the start of the Nazi regime, has led to the formation here of an Academic Assistance council.

This organization will endeavor to

alleviate the suffering among arts and university teachers in countries by raising a large fund to be used in providing maintenance for displaced teachers and in finding them the chance to work.

The issue raised at the moment is not a Jewish one alone; many have suffered, or are threatened, no Jewish connection, status, or of the council. Luckies Please!

We've taken the words
right out of your mouth

"Luckies Please!" You, our personal friends, have been saying it for years. And because it so aptly sums up the Lucky Strike story, we've taken the words right out of your mouth. "Luckies Please!" of course. They please in the

quality of their fine tobaccos. They please in their mildness and purity of "Toasting". They please the taste. They please the throat. In every way and always, "Luckies Please!" May we thank you, Mr. and Mrs. Smoker, for giving us this phrase!

because "It's toasted"
